『持続可能な食の消費と生産を実現するライフワールドの構築:食農体系の転換にむけて』 食と農セミナーシリーズ 第5回

Developing the EnQ label: tools and strategies to link agro-ecological impact, rural revitalization, and food consumption

EnQラベルづくり:アグロエコロジカルインパクト、地域おこし、と食消費をつなぐ道具と戦略

日時: 2015年10月20日(火)13:00-17:00 場所:キャンパスプラザ京都6階第1会議室 http://www.consortium.or.jp/about-cp-kyoto/access

■ Purpose of seminar (本セミナーの目的)

This workshop explores tools and strategies that allow urban consumers to contribute to ecological sustainability and support rural agricultural economies through everyday food purchases. Members from Working Group Four (WG4) will present on issues related to the development of a multi-indicator, integrated food labelling scheme tentatively named the "EnQ Label." The seminar will be followed by a meeting of WG4 and other project members to discuss concrete research plans.

Participation is welcome to all those interested.

● Program (プログラム)

- ♦ 13:00-13:05 Introduction (Dr. Steven McGreevy, RIHN)
- 13:05-13:30 Introducing the framework and roles of WG4 (Dr. Ayaka Kishimoto, NIAES)
- ♦ 13:30-14:00 Revisiting CoolVege the success story and future vision (Prof. Akira Shibata, Ritsumeikan Univ.)
- ♦ 14:00-14:30 Web tool for managing agricultural greenhouse gases and linkage with Environmental Quality Labeling (Dr. Yasuhito Shirato, NIAES)
- ♦ **14:30-15:00** Q& A
- ♦ 15:00-15:15 Break
- ♦ 15:15-17:00 WG4 Meeting
 - Discussion on WG4 outcome for PR stage, strategy for next five-year FR, interaction with other WGs.
 - Outcome planning, Timeline
 - Learn from existing indices/studies (cases from abroad, Eco-labels in Japan)
