

4th APSAFE Symposium

Supporting Sustainable Food Systems:
Quality Food and Ethical Consumption

December 3 - 16 2020

ONLINE

Individual Presentation via Slack & YouTube
Keynote Speech via YouTube

We cordially welcome researchers, students, policy makers, community activists, and practitioners!

Admission Free!

Presentation and Discussion via
Slack

2 Weeks
for Networking Opportunities

New Knowledge and Ideas on
Food Ethics

Rethinking and restructuring food production methods is inevitable if we hope to make food systems more sustainable. New technologies in agriculture, aquaculture, animal husbandry, and food processing have many potentials, and research results from various perspectives such as agroecology, resilience, human-animal relationships, degrowth, gender, and food sovereignty have many visions for future. However, none of them are a panacea. To tackle the wicked problems of the food system in each place, we need a platform for transdisciplinary mutual learning. We hope that APSAFE 2020 will be one of those opportunities to create such platform.
