BE GORILLA

Planet Of The Gorillas Conference

PLANET-G

This is a conference where participants fully inhabit the perspective of a gorilla in order to make proposals to human society.

The goal is for each participant to unsettle their own practice by engaging in a "dialogue with a gorilla," and from that perspective, to propose insights for human society. In the Anthropocene, how would a gorilla choose to live? Let us embark on a new journey to the "Planet of Gorillas: PLANET-G."
