

EREC Comments on Ongoing Research Projects
except for those subject to Mid-term or Final Evaluation

Project Year	PR	
Project Title	Fair and Sustainable Hunting Management through Dialogues between Local Knowledge and Science	
Abbreviated Title	Fashloks	
Project Leader	HONGO Shun	
Project Period	5 years Full Research	
Affiliated Program	Global Environmental Culture Program, MATSUDA PD	

General advice and comments of the EREC

The committee recognizes the advancement made by distinguishing key attitudes and challenges in the different research locations. This distinction will be a valuable basis for understanding the effects of societal contexts and prior conceptions on hunting vs. conservation tensions.

Looking forward, the project must pay closer attention to the red list on the status of species and develop detailed principles and approaches not just to be shared with collaborators but also shared with local people and hunters.
