

## 2022 Incubation Study Proposal

<b>Applicant of Incubation Study</b>	Institution	
	Position	
	Name	
<b>Title of Proposed Incubation Study</b>		

Note: Please keep your responses for Section 1 through 4 within four pages and your response for Section 5 within one page. In describing these, please take into account the points: 1. Scope of research and its importance 2. Appropriateness of the Research Proposal 3. Sound project design.

### 1. Outline of study

Please summarize the study within 200 words.

### 2. Aims of study

### 3. Research plan and method

### 4. Expected outcomes

### 5. Track record statement

In addition to general research achievements such as published papers, books, invited lectures, and awards, please include the results of joint research operations that are presumed to contribute to the operation of this study, the results of obtaining external funds, or practical activities in society. Please describe them as a basis for the feasibility of your research plan, not exhaustively.

Achievements listed here are for the past 5 years; however, you may include that are closely related to the contents of the application before that time. Please list from most recent first and add a serial number. Please underline the applicant's name and indicate whether or not the work was peer-reviewed.

**6. Budget plan** Maximum: ¥1 million There is no page limit for Section 6

(Unit: 1,000 JPY)

Total of research expense Within 1 million JPY		Breakdown							
		supplies		travel		honoraria		others	
0		0		0		0		0	
Detail of supplies		Detail of travel		Detail of honoraria		Detail of others			
Description	Amount	Description	Amount	Description	Amount	Description	Amount		
e.g.) Software (○○○)	50	Meeting (Tokyo-Kyoto, 3 days, 3 people)	180	Organizing materials	100	English proof-reading	100		
<b>Necessity of supplies, travel, honoraria, and other expenses</b>									

Supplies : Expendables (including software programs)

Travel : For data collection, fieldwork, meetings, etc

Honoraria : Fees for individuals who contribute to the project

Others : Other expenses that do not fall under the above categories

※In principle, hiring of employees is not allowed at the IS stage. In addition, purchase of a set of equipment whose price including tax exceeds 100,000 JPY is not allowed.

**7. Research team**

Name	Institution	Position	Role in project
