National Institutes for the Humanities, Japan

RESEARCH INSTITUTE FOR HUMANITY AND NATURE

2007-2008

Message from the Director-General	1
Aim and Purpose of Establishment	2
Special Features of RIHN	3
The Goal of RIHN: Constructing the Integral Wisdom as Consilience	6
A Guide to the Facilities	8
Dissemination of Research Results	10

Research Activities

● 2007 Research Projects	14
● Process Leading to FR Project Implementation	15
● Evaluation of Completed Research	16

1-1 CR Impact of Climate Changes on Agricultural Production System in the Arid Areas	17
2-1 CR Emissions of Greenhouse Gases and Aerosols, and Human Activities in East Asia	18
3-1 CR Multi-Disciplinary Research for Understanding Interactions between Humans and Nature in the Lake Biwa-Yodo River Watershed	19
4-1 CR Historical Evolution of the Adaptability in an Oasis Region to Water Resource Changes	20
5-1 CR Global Water Cycle Variation and the Current World Water Resources Issues and Their Perspectives	21

● Research Projects

1-2 FR Recent Rapid Change of Water Circulation in the Yellow River and Its Effects on Environment	22
2-2 FR Sustainability and Biodiversity Assessment on Forest Utilization Options	24
4-2 FR A Trans-Disciplinary Study on the Regional Eco-History in Tropical Monsoon Asia: 1945-2005	26
3-2 FR Interactions between Natural Environment and Human Social Systems in Subtropical Islands	28
5-2 FR Interaction between Environmental Quality of the Watershed and Environmental consciousness: With Reference to Environmental Changes Caused by the Use of Land and Water Resource	30
2-3 FR Human Activities in Northeastern Asia and Their Impact on the Biological Productivity in North Pacific Ocean	32
2-4 FR Human Impacts on Urban Subsurface Environments	34
2-5 FR Agriculture and Environment Interactions in Eurasia: Past, Present and Future —The Ten-thousand-year History	36
5-3 FR A New Cultural and Historical Exploration into Human-Nature Relationships in the Japanese Archipelago	38
3-3 FR Environmental Change and the Indus Civilization	40
1-3 FR Vulnerability and Resilience of Social-Ecological Systems	42
4-4 FR Neolithisation and Modernisation: Landscape History on East Asian Inland Seas	44
4-5 FR Historical Interactions between the Multi-cultural Societies and the Natural Environment in a Semi-arid Region in Central Eurasia	46
5-4 FR Effects of Environmental Change on the Interactions between Pathogens and Humans	48
2-8 PR Environmental Changes and Infectious Diseases in Tropical Asia	50
3-4 PR Human Life, Aging, and Disease in High-Altitude Environments: Physio-medical, Ecological and Cultural Adaptation in the Three Great "Highland Civilizations"	51
3-5 PR Collapse and Restoration of Ecosystem Networks with Human Activity	52
2-7 FS Relationships between Human Activities and Atmospheric Changes, Possibilities of Harmonious Society for Environmental Issues in the East Asia	53
2-9 FS Sustainable Food Production Concept Based on Evaluation of Traditional Agricultural Practices	54
2-10 FS Migration, Sojourn, and Possibilities in Cities	55
2-11 FS Environmental Problems and Human Security for Children as Our Future: Asia-Pacific Children and the Environment (ACE) Project	56
3-6 FS A Study of Human Subsistence Ecosystems among Arab Societies: To Combat Livelihood Degradation	57
3-7 FS The Effects of Economic Activities on the Ecosystem in the Caspian Sea and Cooperative Environmental Protection System	58

● Research Cooperation in Japan and Abroad / External Research Collaboration

Activities of the Research Promotion Center	60
Research Staff Profiles	61
Organization	69
