

Comments on Ongoing Research Projects
except for those subject to Mid-term or Final Evaluation

Project Year	FR1	
Project Title	Adaptive governance of multiple resources based on land-sea linkages of the water cycle: application to coral reef island systems	
Abbreviated Title	LINKAGE	
Project Leader	SHINJO Ryuichi	
Project Period	5 years Full Research	
Affiliated Program	3rd phase program: Taniguchi DDG	

General advice and comments of the EREC:

The EREC Committee is positive that the project seeks to strengthen the adaptive governance of multiple resources connected by the water cycle in coral reef islands. At the same time, the main concerns shared widely among the Committee members is how to integrate the co-creative and co-design linkage studies among the four project research units and among researchers and stakeholders and how to implement the comparative study in Indonesia and Palau.
